

Site Audit: Detailed Issue: Duplicate title tags

themegaradio.com

Duplicate title tags

Project name: themegaradio.com

Detailed Issue Description

About this issue:

Our crawler reports pages that have duplicate title tags only if they are exact matches. Duplicate <title> tags make it difficult for search engines to determine which of a website's pages is relevant for a specific search query, and which one should be prioritized in search results. Pages with duplicate titles have a lower chance of ranking well and are at risk of being banned. Moreover, identical <title> tags confuse users as to which webpage they should follow.

How to fix:

Provide a unique and concise title for each of your pages that contains your most important keywords. For information on how to create effective titles, please see [this Google article](#). You can also view the On-Page SEO Basics: [Meta Descriptions article](#)
